Services Director

To: San Luis Obispo County Board of Supervisors  
From: Karen Baylor, Ph.D., MFT, Administrator, Behavioral Health Services  
Paul Hyman, MPA, Administrator, Drug and Alcohol Services  
Date: February 28, 2006  
Subject: Approve agreement with the California Department of Corrections

Recommendation

It is recommended that the Board approve a renewal agreement (Clerk's File) with the California Department of Corrections for Drug and Alcohol Services (DAS) to provide services to parolees in the community.

Discussion

Since 1998 California State Department of Corrections has contracted with San Luis Obispo County Drug and Alcohol Services to provide outpatient substance abuse treatment, counseling and referral services to parolees located in Parole Region II, which is all of San Luis Obispo county and Northern Santa Barbara county.

As there is an ongoing need for these services, the Department of Corrections is again entering into a two-year agreement with San Luis Obispo County Drug and Alcohol Services. Under this agreement, DAS will provide 51 hours per month of outpatient substance abuse treatment counseling, and related services from January 1, 2006 until the termination of the contract on December 31, 2007. This program will serve approximately 90 clients.

This agreement does not overlap with Prop.36 client services because parolees do not qualify, under the conditions of their parole, for Prop.36 services.

Other Agency Involvement/Impact

This agreement requires a coordinated effort between State Department of Corrections and San Luis Obispo County Drug and Alcohol Services.

Financial Considerations

The agreement is from January 1, 2006 through December 31, 2007. The County of San Luis Obispo will be paid \$74,443.78. The previous years' contract was for \$87,130.00.

B-15  
2

The reduction in the funding is due to the Department of Corrections reducing funding for parolee treatment services, occurring in the San Luis Obispo County Jail. The reduction was budgeted for in FY 05-06. This item will have no general fund impact.

#### Results

Approval of this agreement will result in the execution of one agreement between the California Department of Corrections and San Luis Obispo County Drug and Alcohol Services.

#### Proposed Outcome Measures 2006-2007

100% of all parolees referred by the Department of Corrections to Drug and Alcohol Services will be evaluated for substance abuse needs and provided with appropriate treatment, counseling, and referral services.

95% of parolees will show improvement in their addiction severity as measured by California Outcomes Measurement System (Cal OMS) intake and exit assessments. Cal OMS is a new state mandated system that will replace the Addiction Severity Index used previously by DAS. The nature of the parole intervention does not always allow for an official exit interview. In these cases outcomes will be measured through counselor's determination of client's progress to date and drug test results when available.

#### FY 2004-2005: Results:

100% (145) of all parolees referred by the Department of Corrections to Drug and Alcohol Services were evaluated for substance abuse needs and provided with appropriate treatment, counseling, and referral services.

95% (138) of parolees showed improvement in their ASI scores after 30 days in the program when compared with their ASI scores at intake. The ASI measures 7 core areas of community functioning. Changes over time demonstrate an impact of treatment and its subsequent impact of behavior.

#### Proposed Outcome Measures 2004-2005:

100% of all parolees referred by the Department of Corrections to Drug and Alcohol Services will be evaluated for substance abuse needs and provided with appropriate treatment, counseling, and referral services.

95% of parolees will show improvement in their ASI scores after 30 days in the program when compared with their ASI scores at intake. The ASI measures 7 core areas of community functioning. Changes over time demonstrate an impact of treatment and its subsequent impact of behavior.
